

KEF

INNOVATORS IN SOUND

KEF PRODUCT LIST

An innovative concept inspired by the legendary LS3/5a, the KEF LS50 mini monitor speaker is designed to bring a professional studio monitor concept into the home.

Rarely the case in such a compact design, the LS50 monitor delivers a rich, multi dimensional "soundstage experience" that is out of all proportion to its size. Patented acoustic designs, together with state-of-the-art technology's from KEF's latest flagship KEF Blade loudspeaker, provide the ultimate studio experience even in the smallest of spaces.

Creating a small housing capable of delivering such a spacious sound is the result of considerable research and development. In-cabinet construction, baffle shaping and port design, the LS50 breaks new ground with patent pending technology. All of this is made possible by KEF's leadership in modern research (including techniques such as Finite Element Analysis and Computational Fluid Dynamics). LS50's unique technology offers by far the cleanest, most accurate studio-grade performance of any mini monitor.

LS50 Monitor Bookshelf

Gloss Black/Rose Gold,
Gloss White/Electric Blue
11.9 x 7.9 x 10.9in.
